

Order form Internet & IT-Equipment

Fax: +43 (0)662 22 00 - 599

The exhibition centre Salzburg is area-wide equipped with wireless LAN which is only usable in the standard 802.11a (5GHz) and can be ordered by this order form. Exhibitors are only allowed to use their own WLAN in the standard 802.11b (2,4GHz), and has to see to it, by correct configuration and positioning, that there is no interference with other systems, especially that of the host and that of the exhibition centre Salzburg. In case of interference the host is allowed to shut down alien WLAN systems by use of adequate measures. The technically flawless operation of wireless systems can not be guaranteed in principle due to physical limitations of the wireless technology.

It is therefore recommended to order a wired LAN connection with this order form.
